EDUCATION

University of Illinois of Urbana-Champaign

Master's in Electrical & Computer Engineering GPA: 3.6/4.0 (4.0 After first semester, Graduate Honor)

Jan.2018 - Dec.2019

Champaign, IL, US

University of Missouri, Columbia

Bachelor's in Electrical & Computer Engineering GPA: 3.5/4.0; Major GPA: 3.8/4.0

Aug.2014 - May.2016

Columbia, MO, US

University of Electronic Science and Technology of China

Bachelor's in Electronic Science & Technology Engineering GPA: 3.5/4.0; Major GPA: 3.7/4.0

Sep.2012 - Jul.2014

Chengdu, China

WORKING EXPERIENCE

Member of Technical Staff, Oracle

Apr.2020 - Present | Seattle, WA

- > Worked with Oracle Cloud Infrastructure Security team, write code and add features
- > Take customer tickets, patching and maintain Secret Cleaner, SLAPS, MASS, ESP scanners

Senior Software Engineer, Talent Team, Huawei

Aug.2021 - Sep.2022 | Shenzhen, China

- > Worked with Huawei Cloud Block Storage team, write test case and code security test
- > Test product 100us and SFS 2.0; finish rule of red line 3.0 and network and privacy report

CTO, mornscience and seascience, part-time

Nov.2021 - Dec.2024 | Shenzhen, China

- > Software products Initial design and build such as trustrent, trustfriend, trustjob

Security Engineer Intern, Insight Data Science

Jan.2020 - Apr.2020 | San Francisco, CA

- > Used python and machine learning to find and alert different types of web attacks

Software Engineer Intern, Schlumberger

May.2018 - Aug.2018 | Houston, TX

- > Oil Data Web Platform, Used Typescript and Angular, implemented Graph Algorithm and APIs

Software Engineer Contactor, SitaCorp & Clinpharma Clinical Research

Dec.2016 - Nov.2017 | Princeton, NJ

- > Developed "Online-Order-System" with MEAN stack technology

RESEARCHES & PROJECTS

Social Media Behavior Analysis with Machine Learning

Nov.2019 - Dec.2019 | Champaign, IL

- > Used Python (NumPy) and KNN, compared with other machine learning models
- > Predicted over 70000+ feelings and obtain over 99% accuracy

Deep Network Face Swap Research Project

Mar.2019 - May.2019 | Champaign, IL

- > Swapped two person's face by detection/segmentation, train face mask
- > Used Generative adversarial Networks (GANs), NumPy, VGG

Computer Vision Optimizer Behavior Analysis

Apr.2019 - May.2019 | Champaign, IL

- > "CIFAR-100" Object Classification via NumPy, VGG, Resnet
- > Research and Compare optimizer behaviors in Object Classification

Embedded System Project

Nov.2015 - Dec.2019 | Columbia, MO

- > Completed lifecycle of Embedded System Project "SCADA system" and three boards
- > Practiced "TCP/IP" network method by sockets, realized "Music Keyboard" based on TS-7250

Subway Traffic System Mode Design

May.2013 - Jun.2013 | Chengdu, China

- > Conducted mathematical modeling subway lines for UESTC student routine in Chengdu

SKILLS & INTERESTS

Programming Language: Python, C++/C, JavaScript, Java, PHP, Go, Swift

Web and Mobile: HTML, CSS, TypeScript, Angular, Bootstrap, Node JS, Express, Django, AWS, Google Cloud, Android, IOS

Database: SQL, Mongo DB, MySQL, SQLite, HBase, Blockchain

Deep Networks: Pytorch, TensorFlow, Keras, OpenCV, Skimage, Sklearn, Google Colaborary, Jupyter Notebook

Award: Math Competition NO 40, Mathematical Modeling University Competition No1

Hobbies: Chess & Card Games, Table Tennis, Basketball, Reading, Teaching, Algorithm Competitions, Kaggle Competitions, CTF

Language: Chinese (native), English (proficient)
